“TO GIVE” The definition of “to give” is: to place in someone’s care.

We at New PASSAGES (NP) cherish those we serve. Our consumers, communities, donors, staff and friends.

When a gift is given to us, we know that you trust us to care for it. Each donation you “give” us, is precious and valued and used wisely, to support this we have established a Policy where everyone in our organization promises to abide and honor this through our Donor Bill of Rights.

New PASSAGES was founded by our President/CEO Dr. Dennis Jacobs 21 years ago and has grown into one of the top Michigan behavioral health providers. We are now serving over 7,000 consumers with 68 programs in 13 Michigan counties and are integral to the health of our community.

Recently NP launched its “Corporate and Community Plan” – Building Values into the Work You Do Everyday, outreaching to our businesses and community organizations. NP’s Corunna Road Program in Flint and leader Genesee artists have just established “ArtUnited” – A program uniting Art with our programs and “Making Art As If the World Matters”.

We have a great work team but to succeed we also need your help. Funds need to be raised, so that we can never refuse anyone needing our help and ensure we provide the necessities for everyone. Such as; "the purchase of bus passes, so people can travel to receive care at our Outpatient Clinics", "shampoo, soap, toothpaste supplies for consumer packs" and "computers for training and therapy";

There are lots more fund and friend raising developments taking place:

to find out more, please contact by email: support@newpassages.org

Warm Wishes and Thanking You in Anticipation
